Date of Birth: 1953-04-22

Encounter / CSN: ENC-20250613-7782304

Admitting Unit: Medical-Surgical Unit 4 West (Room 4W-218)

Form Completed: 2025-06-13

Attending of Record: Marcus Thorne, MD — Hospital Medicine

1. Consent to Admission and Routine Inpatient Care

I, Marva Lydell, voluntarily consent to admission to Sanctum Regional Medical Center and to the routine medical care, nursing care, observation, monitoring, and treatment ordered by my attending physician and the members of the hospital care team during my inpatient stay.

I understand that “routine inpatient care” includes, but is not limited to, the following categories of evaluation, monitoring, and treatment, to be performed at the discretion of the treating providers when clinically indicated:

- Physical examination, history-taking, and bedside clinical assessment by physicians, residents, advanced practice providers, nurses, and other licensed members of the care team;
- Vital sign monitoring, weight measurement, intake-and-output recording, and bedside point-of-care testing;
- Peripheral intravenous (IV) line placement and IV fluid therapy;
- Phlebotomy (blood draws) and routine laboratory testing of blood, urine, and other specimens;
- Continuous and intermittent cardiac telemetry monitoring, including transfer to a telemetry step-down unit if clinically indicated;
- Pulse oximetry, supplemental oxygen administration by nasal cannula or mask, and titration of oxygen flow based on clinical need;
- Continuation of home respiratory support devices, including CPAP, where ordered;
- Plain-film radiography (X-ray), ultrasound, electrocardiography (ECG), echocardiography, and other standard non-invasive diagnostic imaging;
- Administration of prescribed medications by oral, inhaled, subcutaneous, intramuscular, intravenous, or topical routes, including diuretics, anticoagulants, antihypertensives, insulin, inhalers, and other medications indicated by the patient’s underlying conditions;
- Glucose monitoring, including fingerstick (capillary) testing and inpatient sliding-scale insulin administration;
- Wound care, dressing changes, and basic skin care;
- Physical therapy, occupational therapy, respiratory therapy, and ambulation assessment, including six-minute walk testing and other functional testing;
- Dietary services, including therapeutic diets and nutrition consultation;
- Routine nursing interventions such as fall-precaution measures, deep-vein thrombosis prophylaxis, pressure-injury prevention, and aspiration precautions.

I understand that my care may also involve consultation with specialty services (including cardiology, nephrology, pulmonology, pharmacy, case management, and social work) and that the trainees, residents, and students of those services may participate in my care under appropriate supervision.

I understand that this is a general consent for routine inpatient care. Separate written, procedure-specific informed consent will be obtained for any operation, invasive procedure, blood-product transfusion, or other intervention that requires its own consent under hospital policy.

2. No Guarantee of Results

I understand that no guarantees or assurances have been made to me concerning the results of any examination, treatment, or other procedure performed during this admission.

3. Disclosure of Health Information; Assignment of Benefits

I authorize Sanctum Regional Medical Center, my attending physician, and the members of my care team to release health information about this admission to my insurer(s), to other treating providers, and to entities authorized by law, for purposes of treatment, payment, and health-care operations, as described in the Notice of Privacy Practices.

I assign to Sanctum Regional Medical Center and to the participating physicians all benefits payable to me under my health insurance, Medicare, Medicare Advantage, or other coverage for services rendered during this admission, and I authorize direct payment to the hospital and providers. I understand that I remain responsible for any charges not covered by my insurer.

4. Personal Property

I understand that the hospital is not responsible for the loss of or damage to personal property (including but not limited to jewelry, money, eyeglasses, hearing aids, dentures, mobile devices, and clothing) unless deposited with the hospital cashier for safekeeping.

5. Code Status Confirmed at Admission

I have discussed resuscitation preferences with my admitting physician. My current code status, confirmed on admission and entered in the medical record on 2025-06-13, is:

■ **Full Code** — In the event of cardiac or respiratory arrest, I wish to receive cardiopulmonary resuscitation, including chest compressions, defibrillation, advanced cardiac life support medications, and endotracheal intubation with mechanical ventilation as clinically indicated.

■ **Do Not Resuscitate / Do Not Intubate (DNR/DNI)**

■ **Modified / Limited Resuscitation (details in physician order)**

I understand that my code status may be reviewed and revised at any time during this admission in consultation with my physician.

6. Acknowledgment of Required Notices

By signing below, I acknowledge that I have been offered and have received copies of the following documents on 2025-06-13:

- **Notice of Privacy Practices (HIPAA)** — describing how Sanctum Regional Medical Center may use and disclose my protected health information, and my rights with respect to that information.
- **Patient Rights and Responsibilities** — describing the rights afforded to me as a patient at this facility, including the right to participate in care decisions, the right to be informed, the right to refuse treatment to the extent permitted by law, and the right to file a grievance.
- **An Important Message from Medicare About Your Rights** (“Important Message from Medicare” / IM) — describing my rights as a Medicare beneficiary regarding hospital discharge, the discharge appeal process, and contact information for the Quality Improvement Organization. I understand that a follow-up copy of this notice will be delivered to me prior to discharge, as required.

I have had the opportunity to ask questions about each of these notices.

7. Voluntary Consent

I confirm that I have read this form, or have had it read to me; that the contents have been explained to me in language I understand; that I have had the opportunity to ask questions and have my questions answered; and that I am signing this consent voluntarily. I understand that I may withdraw this consent at any time, except to the extent that action has already been taken in reliance upon it.
