

LINCOLN ELEMENTARY SCHOOL — TEACHER REPORT

Student: Marcus D. Whitfield **Grade:** 4th
Teacher: Ms. Gabriela Santos **Date:** 03/10/2026
Enrollment Date: 02/03/2026 **Days Enrolled:** ~25 school days

ACADEMIC PERFORMANCE

Marcus is a new student who enrolled approximately 5 weeks ago. He transferred from Roosevelt Elementary. No IEP or special education records were received with his enrollment. He is currently placed in a general education classroom without accommodations or modifications.

He is performing significantly below grade level in all subjects. Reading is at approximately a 2nd grade level. Math skills are inconsistent. Written work is minimal — he produces very little written output and appears to have difficulty with pencil grip and letter formation.

BEHAVIORAL OBSERVATIONS

Marcus is a quiet student who rarely initiates interaction with peers or adults. He becomes distressed during transitions (changing subjects, moving to a different room, going to recess). He has had multiple meltdowns in the classroom, characterized by screaming, crying, and on two occasions throwing objects (a chair on 03/10/2026).

He engages in repetitive behaviors including hand-flapping, rocking, and toe-walking. These behaviors increase during periods of apparent stress. He frequently chews on a small painted wooden toy during class.

He falls asleep in class almost every day, usually during the afternoon. He often appears fatigued and has dark circles under his eyes.

CONCERNS

- No IEP or special education support in place despite obvious need. We have not received any records from his prior school.
- Behavioral escalation has increased over the past 2 weeks (approximately 03/01 - 03/10). He went from being quiet and withdrawn to having daily outbursts.
- He is frequently drowsy and inattentive, suggesting possible sleep problems.
- His foster parent, Ms. Carter, has been responsive and cooperative. She reports similar behavioral concerns at home.

Ms. Gabriela Santos, 4th Grade Teacher
